

I listen to KLOVE everyday. It gives me so much encouragement and uplifting through my day,I can't see listening to anything else.If it was to be taken off the air there would be such a protest from listeners,like you wouldn't believe. The outreach that this station has is so far spread, we cannot reach the world with the gospel without stations like KLOVE. Please don't let it be taken away from us.It can't be replaced with other secular stations.I started listening to KLOVE because I got tired of hearing the same old songs about beer drinking and parties, I had to find an alternative. So I found KLOVE and the other christian stations.They have the only music I listen to now.
